

**AMERICAN RESCUE PLAN  
ACT OF 2021:  
VIRGINIA TOURISM  
RECOVERY BRIEFING**

June 23, 2021

# TRAVEL EXPENDITURES ARE CURRENTLY 30% LESS THAN THE PRE-PANDEMIC 2019 BASELINE

- US Travel Association & Tourism Economics modeled expenditures have our “run-rate” about 30% lower than 2019
- While this estimate is at a statewide level, the regional impact is much more disparate
- Outdoor localities such as Virginia Beach and areas servicing Shenandoah National Park have been impacted relatively less than Northern Virginia – where destinations are predominantly indoor, event-based, and more exposed to air travel

# OVER HALF OF VIRGINIA'S 2020 DECLINE IN ECONOMIC GROWTH IS DRIVEN BY NEGATIVE IMPACTS TO LEISURE & HOSPITALITY and STATE & LOCAL GOVERNMENT

Contribution to Economic Growth in Virginia by Industry: 2016 - 2020

# KEY TRAVEL IMPACTED INDUSTRIES HAVE CARRIED THE BURDEN OF VIRGINIA'S JOB LOSSES

- Our key sectors represent about **1 out of every 5 Virginia jobs** – but they are responsible for about **3 out of every 5 jobs lost**
- Leisure & Hospitality is by far the most impacted industry grouping in terms of absolute employment and percent change
- Leisure & Hospitality accounts for **only 10.3% of payrolls, but 45.4% of losses**
- Local Government is the second most impacted VEC Division with 14.6% of Nonfarm Virginia job losses

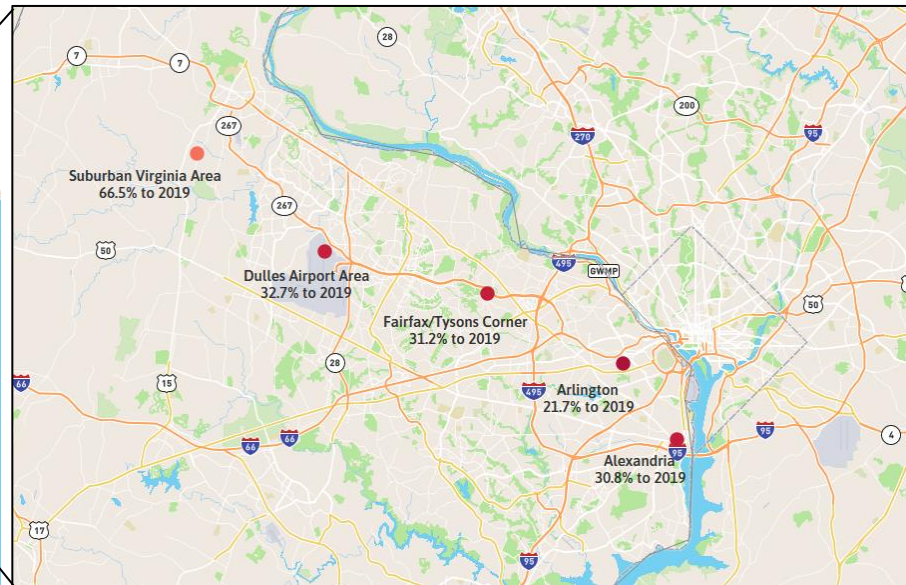

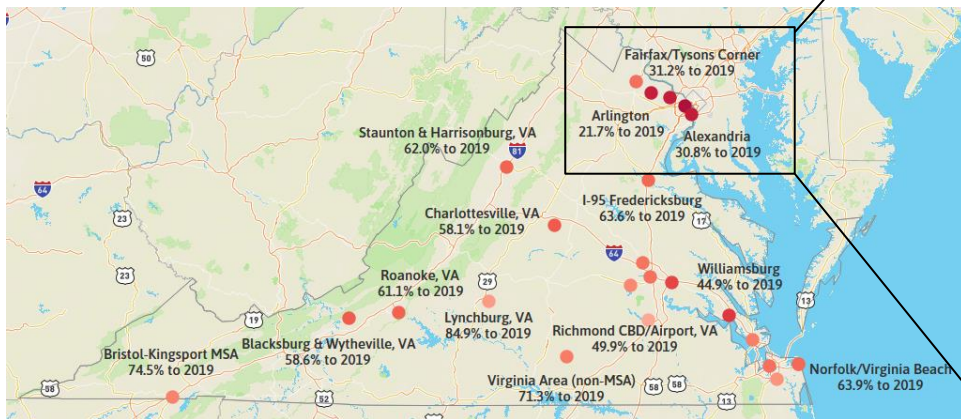

Employment Category	Number Employed in January 2020	Number Lost as of April 2021	Share of Total Nonfarm in January 2020	Share of Total Losses as of April 2021
Total Virginia Nonfarm Jobs	4,089,100	-199,400	-	-
Goods Producing	458,500	-8,700	11.2%	4.3%
Professional & Business Services	776,100	-8,900	19.0%	4.5%
Leisure & Hospitality	421,400	<b>-90,600</b>	<b>10.3%</b>	<b>45.4%</b>
Local Government	389,500	<b>-29,100</b>	<b>9.5%</b>	<b>14.6%</b>

Source: Virginia Employment Commission via St. Louis Federal Reserve Economic Database – accessed June 1, 2021 with data through April 2021

# USING THE HOTEL MARKET AS A REGIONAL INDICATOR, THE RECOVERY HAS BEEN PIECEMEAL ACROSS VIRGINIA

## Index to 2019 Baseline of Hotel Revenue Gap

April YTD 2021 vs. April YTD 2019

Index is Hotel RevPAR (Revenue Per Available Room) for YTD April 2021 vs. 2019  
Data provided by Smith Travel Research, a division of CoStar

Example: Arlington Index of 21.7% means that **current RevPAR level of \$35.52 is only 21.7% of the 2019 level of \$163.48**

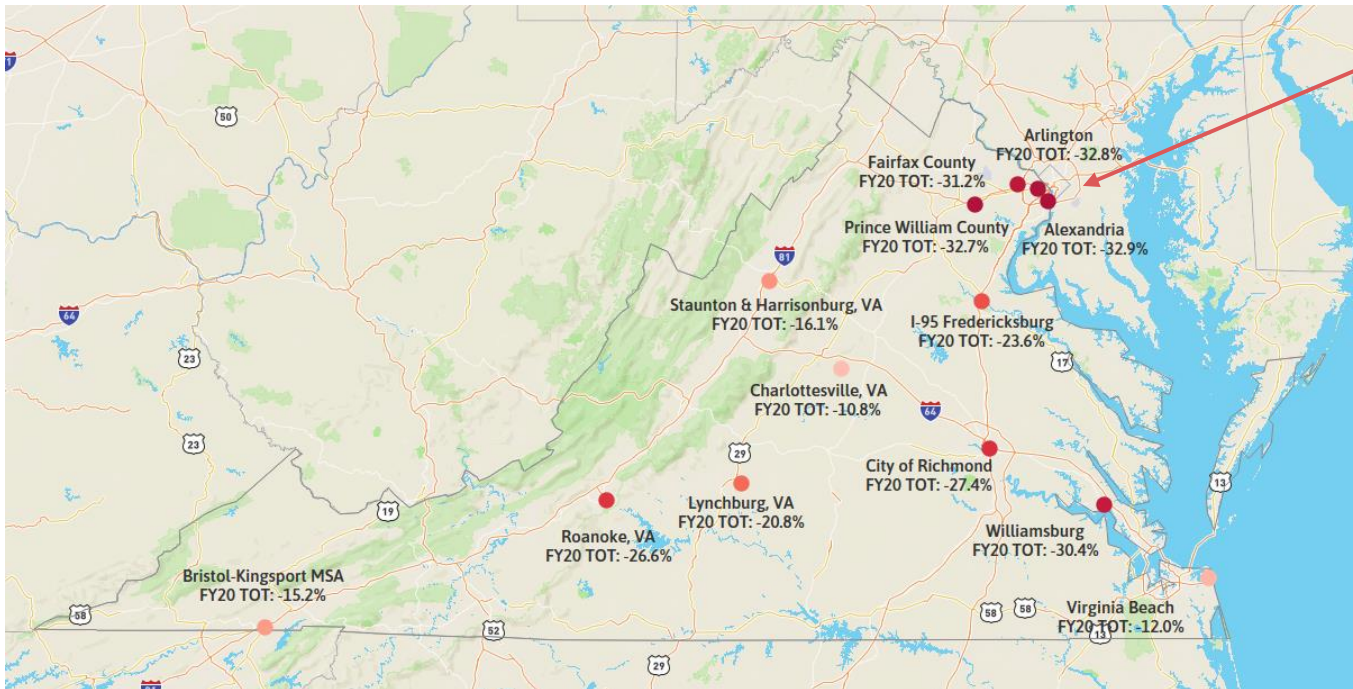

Northern Virginia has been severely impacted due to reliance on weekday business travel & event-based business

# AS A RESULT, ALL LOCAL HOTEL TAX COLLECTIONS HAVE BEEN SIGNIFICANTLY NEGATIVELY IMPACTED – ERODING RESOURCES AVAILABLE FOR LOCAL DMOs TO RESPOND

Transient Occupancy Tax by Locality – FY2019 vs. FY2020  
Data for FY2020 only contains pandemic impact for last 4 months of FY2020

Transient Occupancy  
Tax revenues are  
down about 30-33%  
in Northern VA

- Many of these revenue vehicles fund local DMOs
- In March/April/May/June alone, Transient Occupancy Tax collections were **down as much as 70% vs the same months in FY19**
- This view is undercounting the revenue impact – especially in Northern VA, as Occupancy patterns have not changed significantly from the worst of the pandemic

# IN SUMMARY, VIRGINIA'S HOLE OF LOST TRAVEL EXPENDITURES IS GETTING DEEPER

We have seen how reduced travel expenditures are significantly impacting the Leisure & Hospitality Industry and Local Governments across the Commonwealth through job losses and reduced tax revenues

Cumulative Lost Virginia Travel Expenditures

# THE REQUESTED\* \$50M IN RECOVERY FUNDS WILL BE ALLOCATED BETWEEN VTC AND VIRGINIA'S 133 LOCALITIES

## VTC Funds to support:

- Doubling of Broadcast Reach to 13M Households and Tripling of Digital Reach to 47.5M Households
- Extend time in market from 12 weeks to 15-24 weeks
- Outdoor recreation marketing grants
- Meeting excess demand for Marketing Leverage Program
- Sports Marketing Incentives
- Meetings Marketing Incentives

## Locality Funds to support:

- Reimbursed local marketing expenses to support safe travel
- Shoring-up of DMO resources lost due to reduced tax revenues
- DMO Marketing expenses directly caused by COVID-19 (PPE or COVID-response materials)
- Funds are awarded based on locality providing proof of lost revenue

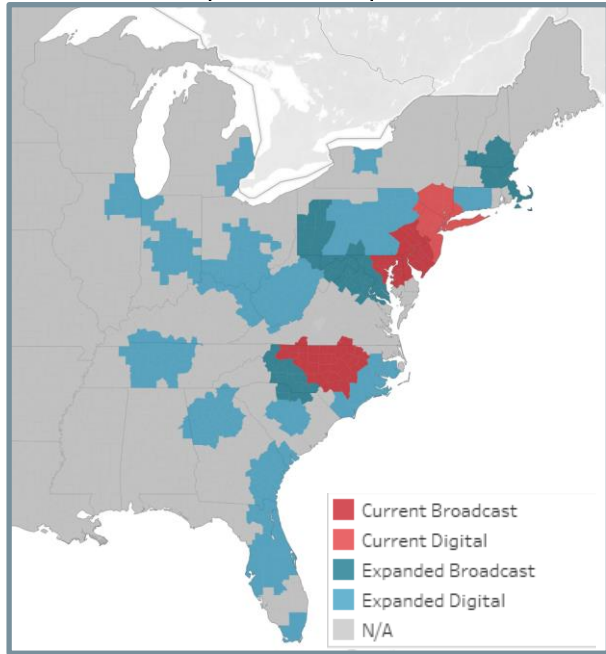

# AN INCREMENTAL \$9M IN VTC MARKETING OVER 2 YEARS DOUBLES VIRGINIA'S BROADCAST REACH, AND TRIPLES DIGITAL REACH

Current Footprint

Expanded Footprint

Change in Households Reached with \$9M+ in Incremental VTC Marketing

■ Current Markets ■ Expansion Markets

	Base	Expanded
TV Markets	4	8
Digital Markets	6	35
Weeks in Market	9	18
Spend	\$2.25M	+\$9M

+9M over two years in VTC Marketing

# ADDITIONAL VTC MARKETING BRINGS TRAVEL EXPENDITURES FROM 2016 to 2017 LEVELS, and TRAVEL SUPPORTED JOBS FROM 2014 to 2015 LEVELS in 2023

VA Travel Expenditures (Billions)

Net Marketing Impact:

- +\$850M Additional Traveler Spending in 2022 and 2023
